

The Psychology Department acknowledges the life and mourns the death of recent graduate Aysenur Ezgi Eygi who was killed on September 6 in the West Bank. Aysenur leaves behind multiple communities, including the Psychology Department, that were made better by her too short life as well as hearts that have been broken across the world.

We offer our deep sympathies to Aysenur's family, friends, and loved ones. We are working with others in the UW community to explore ways that we can best honor Aysenur's memory so that future generations of students will know of her unshakeable strength, her profound compassion, and of her tremendous sacrifice.

Take care,

A handwritten signature in cursive script that reads "Joseph Sisneros". The ink is black and the signature is fluid and legible.

Joseph Sisneros

Professor and Chair
